Conference in London To-day Collapses Shortly After Opening; Both Sides Take Up Old Positions and Refuse to Recede

London, Aug. 19.—Negotiations between the British coal owners and coal miners, which had been looked to to bring peace in the long coal tie-up, collapsed shortly after they opened this afternoon.

It is understood that both sides took up their old positions in the controversy, from which neither would recede. The owners stood for an eight-hour day, settling of wages according to the economic position of the industry, and district settlement.

The miners insisted on a seven-hour day, a national agreement, and refused to move on the question of wages until they had definite guarantees concerning the reorganization of the industry.

SLANDER CAMPAIGN TORIES' HOPE, SAYS LIBERAL'S LEADER

Vilest Kind Ever Used Against Public Men, Mackenzie King Declares

Conservatives Opposed Old Age Pensions on a Pretext

Brandon, Man., Aug. 19.—Speaking of the "campaign of the vilest kind of slander carried against public men," Rt. Hon. W. L. Mackenzie King, speaking here last night, mentioned a member of the last parliament who had made a grave charge against the women of the civil service.

"And then he lied about it," declared Mr. King. "He claimed that the Tories had been misled by the reporter but later he was confronted by the reporter's note which he had himself OK'd."

"The Tory party is trying to fight this campaign on scandal—scandal that they can't support," said the Liberal leader.

Mr. King held meetings in the adjoining constituencies of Portage and Brandon which returned Rt. Hon. Arthur Meighen and Robert Forke to parliament last year.

QUESTION OF POLICY

In Portage La Prairie, Mr. King spoke of the "courtship of public life" in that district. Burns for the welcome extended to him. The mayor of the city, Mr. King pointed out, was president of the local Conservative association. The Liberal leader mentioned Premier Meighen's "splendid abilities in many directions." It was to be wondered at, how one so gifted could take such "short sighted actions, completely subversive to the public interest."

No matter how much personal regard electors might have for Mr. Meighen, they were called upon to vote on questions of policy affecting Canada as a whole.

OLD AGE PENSIONS

Mr. King, speaking in the interests of Mr. Meighen's Liberal opponent, E. A. McPherson, singled out the old age pension legislation as the basis for an attack on Conservative policy. The Liberal Government's old age pension bill had been opposed by Conservatives on a pretext. "I notice that Mr. Meighen is finding that"

DIVERGENT VIEWS OVER ARMAMENTS

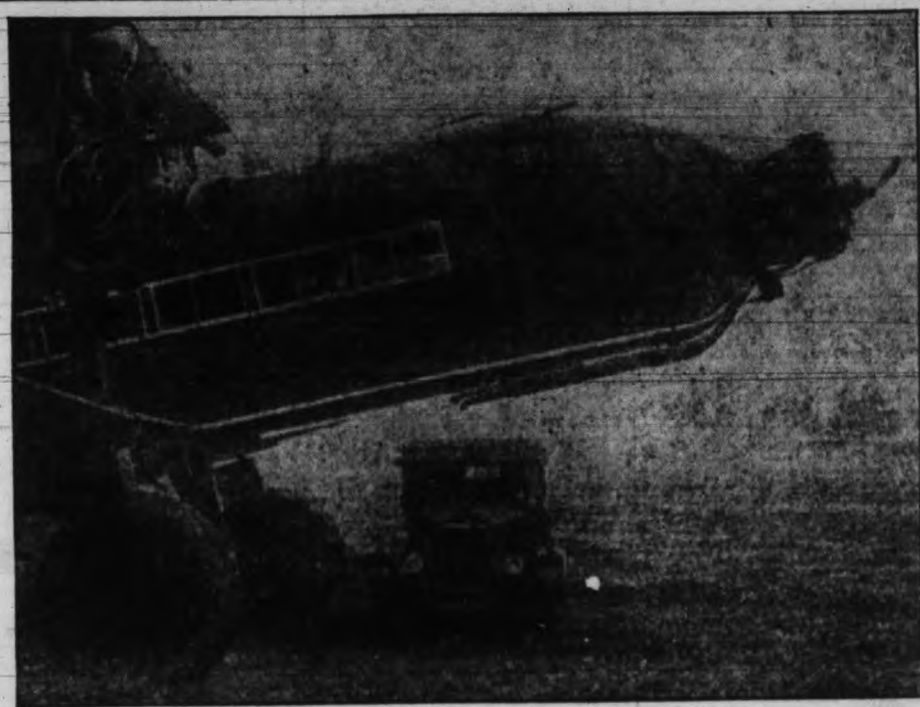

No Advances Made by Delegates in Session at Geneva

Geneva, Aug. 19.—The delegates of the preparatory disarmament commission spent several hours yesterday in an endeavor to reach an agreement on the question of international control over armaments, but the divergent views were clung to so tenaciously by the respective sides that no advances were made.

Two lines of policy were suggested—one the submission of two reports and the other, reference of the whole matter to the Fall session of the commission with the declaration that the political aspects of the problem were so multitudinous that a decision could not be reached on technical grounds, and therefore must be solved purely as a political question.

It is expected that the delegates will adjourn on an early date to meet again in October.

KITCHENER BODY STORY PUBLICITY STUNT TO EXPLOIT WARTIME FILM

London, Aug. 19.—The Daily Sketch to-day prints over the signature of Singleton Gates, a British newspaperman, a long story bluntly stating that Gates invented the whole story of the discovery of Field Marshal Lord Kitchener's body in Norway in conjunction with Frank Power, another British newspaperman. It was Power who announced that he had found Lord Kitchener's body and who brought a case to London supposed to contain the remains. Officials of the Home Office who opened the case said it was empty. Power contended that someone had tampered with the "Kitchener coffin."

Gates asserts in his story that Power was interested in a moving picture entitled "How Kitchener Was Betrayed," which was badly in need of publicity. He says the film was made as long ago as November, 1921, when it was shown privately in London to Lord Kitchener's sisters and several members of the House of Lords and the Commons who, after seeing it, bitterly denounced it. The promoters of the film, therefore, decided to advertise it to the utmost and the alleged discovery of Kitchener's body was the invention to aid in the exploitation.

BODY OF MAN FOUND IN HOTEL

Corpse in Room of Local Hostelry Discovered Early This Morning

Found dead in his room in an early hour this morning, M. R. Desvoigne, a resident of Ellensburg, Wash., died of natural causes, according to the finding of medical man who made a post mortem examination of the body at the Thomson Funeral Home to-day.

At 4 o'clock this morning Dr. Charles W. Duck was called to the hotel, police told The Times to-day. Dr. Duck responded to the emergency summons and found the body of Desvoigne in his room, apparently dead. Examination showed he had died very recently, probably within a few hours of the discovery of the body.

By 4:20 o'clock police officers were on the scene, Constable Clare attending from headquarters with the patrol.

A post mortem examination conducted this morning disclosed nothing to indicate that Desvoigne had died from anything but natural causes. There was no sign of assault or trouble of any kind. There were indications of lung trouble, however, which is believed to have been the cause of death.

Police believe Mrs. Desvoigne, the widow, survives the dead man at Ellensburg. Messages were sent to the Ellensburg police to-day giving them details of the case to aid them in the identification of the man. Desvoigne has been registered as a transient guest at a local hotel for some days and has, at times, taken lodgings at the house where he was found. The key to a room of another hotel was in his pocket, and it was through this that the man was identified.

PARTIES SETTLE DOWN TO STEADY CAMPAIGN GRIND

Liberals to Organize Details of Victoria Fight at Meeting Here To-night

Premier Will Enter Campaign With Powell River Speech Against General McRae

With a bare month of campaigning ahead of them, politicians in all ridings of British Columbia are settling down this week to the steady grind of the pre-election period.

While Victoria Liberals are organizing their campaign in detail at a meeting to-night, supporters of the Party in Vancouver will fire the first guns of their fight at a big rally in the Vancouver Hotel, with Dugald Donaghy, Liberal candidate in Vancouver Centre, as the chief speaker.

The next few days will see the entry of Provincial Government members into the campaign in real earnest. Premier Oliver will make his opening speech on the mainland at Powell River next Wednesday in support of G. G. McGeer, Liberal candidate in North Vancouver. In this riding the Premier will be opposing his old enemy, General A. D. McRae, head of the abortive Provincial Party and now a Conservative candidate in the North Shore seat.

GOING TO NORTH

Meanwhile Attorney-General Manson is due to step into the fight with a speech at Courtenay on Friday, after which he will go north to support Joseph Graham, Liberal candidate in Cariboo.

Minister of Finance, in the interior campaigning through parts of Cariboo while Hon. W. H. Sutherland, Minister of Public Works, is in Revelstoke in interests of R. H. Gale, Liberal candidate in Kootenay West.

To support Fred Stork, Liberal candidate in Skeena, Hon. T. D. Pattullo will go to Prince Rupert and inland shortly.

FAVORS PENSION BILL

The Premier's speeches in the present campaign are awaited with special interest, while covering other issues of the campaign, the Premier will devote considerable time to old-age pensions, a subject in which his Government has taken a lively interest for some years. The Premier announced at the Liberal convention here Tuesday that he would have recommended the adoption of the King Government's old-age pension bill in British Columbia had it been passed by the Senate.

Should the measure be re-enacted the Provincial Government is prepared to support its acceptance in this Province, Mr. Oliver said. He will go into the matter fully during his other campaign speeches.

ALL LIBERALS INVITED

To-night's meeting of Liberals will be open to all supporters of the Party. It will be held in the Liberal headquarters at 8 o'clock to go into the details of the campaign organization. A campaign manager will be chosen and arrangements for campaign meetings completed. Victoria Liberals plan a vigorous fight in support of their candidate, Carew Martin.

Hon. S. F. Tolmie, Mr. Martin's opponent in the Victoria fight, will make his next speech at a meeting of the Sir John A. Macdonald Club at Conservative headquarters in the Campbell Building to-morrow night. He will discuss the tariff.

More Dead Believed to Be in Wreckage; Deliberate Loosening of Plates Believed to Be the Cause of Tragedy Near Lehrte To-day

Lehrte, Germany, Aug. 19.—Nineteen persons were killed and five seriously injured early to-day when the Berlin-Cologne express, speeding at fifty miles an hour, was derailed near here. The tragedy is attributed to the deliberate loosening of fish-plates by an unknown person. Police describe the wreck as the worst in eighteen years.

Although the loss of life at first was not believed great, it mounted steadily, as further victims were found when the debris of the wreck was removed with difficulty.

The victims of the wreck were so disfigured that only nine bodies, two of them English, have been identified. The authorities admit that there may be more dead in the wreckage.

OVER EMBANKMENT

Witnesses say the train was moving at a good speed when the engine suddenly jumped the track, and crashed down the embankment, carrying with it four of the seven cars of the train. A day coach and a sleeper were telescoped. Darkness made the work of rescue very difficult. Even after the arrival of the hospital train and the wrecking crew, the work of recovering bodies of the dead was very slow. Efforts of the police to trace those who caused the wreck so far has been futile. A heavy reward is offered for their arrest.

Spinal Meningitis

By DR. HUGH S. CUMMING

Cerebro-spinal meningitis caused by a germ which produces inflammation of the spinal cord and the membranes covering the brain.

While the disease is regarded as being proportionately more frequent among children, epidemics have shown that older persons are attacked, and that the disease is not epidemic, just as frequently. It is most prevalent in cold climates during the winter and spring and seems to attack principally those living in ill-ventilated or over-crowded houses.

SPREAD BY CARRIERS

It is believed now that this disease is most often communicated by carriers, persons who are not ill, or only slightly ill, but have the germs of meningitis in their noses and throats.

"Spotted fever," as it sometimes is called, begins with a convulsion or chill followed by pains in the muscles, headache, fever, rapid pulse, increased respiration, vomiting and delirium. Small hemorrhages under the skin have given it the name of spotted fever, but these marks are not always present.

CHECKING DISEASE

Mortality from spinal meningitis remains high, but it has been greatly reduced by early and prompt treatment with a specific serum.

When patients are treated at their homes isolation of the cases should be enforced by having the patients in a well ventilated and well lighted room which has been cleared of all unnecessary furniture. Most important of all is the examination of those who have come into contact with the sick, or have been exposed in any way. They should receive medical attention daily.

PLAIN WOMAN SPEAKS

ALL females of the species raised to believe that virtue is a reward and that happiness awaits the good girl, will appreciate the irony of Roxana B. White's "A Plain Woman to Her Rival."

"Yes, you are beautiful. I, who would rejoice at any flaw in the perfection of your loveliness, admit your beauty. They told me, 'character and soul are all that count.' And so I cultivated soul."

"But when I smilingly perform some sacrifice he passes it unnoticed, while my demure pout entrances him. And when I suffer, I smile and leave unheeded the tears that sting against my lids. He does not notice. But you weep and with his handkerchief he dries your eyes and kisses them!"

"Yes, you are beautiful. But you will weep when time takes grey into your hair and weaves your cheek with wrinkles. And I shall laugh! For plain women have no fear of Age!"

COMPARES MEIGHEN WITH MUSSOLINI
Closing Act Insult to People of Canada, Says Forke

Brandon, Man., Aug. 18.—Speaking from the same platform as the leader of the Liberal Party last night, Robert Forke declared that if Mr. Meighen had endeavored to form a real ministry instead of a temporary one, the Progressives would have seen the legislation through to the end.

Even Sir Henry Drayton could not find adequate terms to describe the provisional government and a condition across which was intolerable. The closing of Parliament by Mr. Meighen was the act of a Mussolini. "It was an insult to the people of Canada," he said sharply. "If you are satisfied with that kind of thing, I am not," said Mr. Forke.

Of the Liberal-Progressive co-operation there was nothing to be said. "The Government lived loyally up to its promises and gave us the legislation promised early in the season. There was nothing for us to do but live up to our part of the agreement."

ON FREIGHT RATES
Mr. Forke criticized Premier Meighen's position on freight rates. The Crow's Nest rates had saved \$25,000,000 to \$30,000,000 a year. The Prime Minister had no use for statutory rates and would turn the whole matter over to the Railway Commission.

"I have not much confidence in the Railway Commission. If you want Crow's Nest rates keep Mr. Meighen from being returned," Mr. Forke added.

The Senate was a hard nut to crack. Its pensioners had refused old age pensions in Canada. "I think there is a place in Canada for a second chamber but not the kind we have now."

Easy to Gain With Yeast and Iron
New Combination of Yeast with Vegetable Iron Quick Way to Build Up Weight

This new combination of yeast with vegetable iron, renews the action of sluggish blood cells, drives out dangerous body poisons, increases energy and endurance and supplies the system with the vitamins that build up weight.

For years yeast has been known as a rich vitamin food, but not until we perfected "ironized yeast"—which comes in concentrated tablet form, was it possible to take yeast and iron in the right proportions to build up weight.

"Vegetable iron" when combined with yeast is quite easy to digest, therefore better for the system. And "yeast" when ironized, becomes just twice as beneficial as ordinary fresh or cake yeast.

Mr. Forke made strong denial of the story that he had been consulted by Lord Byng on the subject of Progressive support for the Conservatives.

"Mr. Meighen had been sworn in as Premier before I had any conversation with the Governor-General," said Mr. Forke. "Lord Byng was the most lovable man, but I question if he was capable of meeting the circumstances when he met a way politician who wanted to get power."

MAN DIES IN GAS BOAT EXPLOSION
One-armed Companion Saves Self by Hanging on With Teeth

Three Rivers, Que., Aug. 18.—Joseph Toubert of Ste. Angèle de Lac Beauport was drowned last night in the Lawrence river when the one-armed companion, Charles Doucet, was saved after a struggle of 25 minutes during which he held to the boat by his teeth and withstood the explosion of the gas tank.

He was rescued by Adolph E. J. Lamont, owner of the boat.

Toubert jumped off the boat he had bought five days before when he saw that a spark from the exhaust pipe had set fire to the carburetor and that an explosion was imminent.

OLD BOYS AND GIRLS VISIT OTTAWA AGAIN
All Guests Get Piece of 100th Birthday Cake

Ottawa, Aug. 18.—Hundreds of Ottawa's old boys and girls enjoyed this afternoon about the lawns and beautiful gardens of Rideau Hall. Every visitor who took the trouble to register, received an invitation to visit the residence of the Governor-General.

Each of the visitors was presented with pieces of Ottawa's birthday cake, indicative of the 100th anniversary of the founding of Bytown. The visitors to Ottawa spent a joyous night. When the patrol men returned to their beats at 3 o'clock this morning after unsuccessful attempts to persuade the young people to "call it a night" the frolic was still going strong. In fact some kept it up until dawn.

This is a public holiday for the public here and most of the stores are closed.

France to Cut Down Wheat Importation

Paris, Aug. 18.—Cutting down the wheat importation to the extent of 25,000,000 bushels this ensuing year is one of the first economies the Government announces as part of the nation's retrenchment programme.

Dr. Andre Queuille, Minister of Agriculture, told the Cabinet to-day that by increasing the percentage of wheat in flour the country could dispense with 5,000,000 bushels this coming year. A further saving of 20,000,000 bushels could be effected by the obligatory use of ten per cent of other cereals in bread making.

This is the first of a series of measures intended to reduce the public outlay for living to be placed before the Cabinet. Other similar economies will be considered along this line.

Calgary, Aug. 18.—The Marquis of Salisbury was created Chief Eagle, name of the Sarcee Indians upon his arrival in Calgary Wednesday afternoon. The title was conferred upon him by Chief Starlight of the Sarcee reserve.

LOG MARKETS RISING ALONG WHOLE COAST

Prices Continue to Harden on Export and Domestic Demand

Vancouver, B.C., Aug. 18.—With the log market very steady and inclined to strengthen, the local lumber trade, both domestic and export, continues acceptably healthy.

In the charter field at present the greater part of Australian lumber commitments, excluding liners, are on a time charter basis, which also results in an advance of about 50 cents. Australian parcels are going at \$14, and heavy bookings have been made at this figure.

Lumber to Japan, still healthy, goes at \$10.50 to \$10.75. Some look for \$11.50 in November. The almost disregarded inquiry from China is at \$9.50.

In intercoastal for tramp tonnage \$12 is probably the figure for British Columbia as for the Northwest, with \$12.50 or \$13 for forward business.

Only one charter was posted here during last week: Kurohime Maru, Japanese steamer, 2,894 tons, to load lumber from two ports in North Pacific, for three ports in the Yokohama-Moji range for a lump sum of \$38,000.

Log prices follow: Fir, \$10, \$15, \$20 (market strong); cedar, \$6, \$14, \$22; hemlock, \$11.50; spruce, \$12, \$20, \$22.

Export prices: March base, \$16.50; Jap. 60-60 squares, \$21; Jap. babies, fir, 4x4, \$21; hemlock, 4x4, \$20.

STRONGER ON COLUMBIA
Portland, Aug. 18.—Although supply of logs in the hands of operators of the Columbia River district is somewhat below normal for this time of the year, there was something of a rush to dispose of stocks, and fir prices are more flexible than any time this year with sales showing considerable range. Camps last week operated at about 65 per cent capacity, but with the fire menace lessened over the week-end, activities are broadening, and camp operation this week is estimated at about 80 per cent of capacity. Loggers' quotations were: Fir, \$12 to \$12.50; \$15.50, \$16 to \$16.50; \$20 to \$20.50; red fir, \$15 to \$15.50; hemlock, \$11 to \$11.50; cedar, \$16.

California market is stronger. Export continues to hold up well, with Atlantic is reported strong. Common dimension also holds a strong position at present quotations. Lumber trade prices to-day:

\$48 common for Atlantic, \$19; California, \$15 to \$16; large Japanese squares, \$21; medium, \$19; hemlock, babies, \$18 to \$19; common dimension in straight cars, \$2.50 off list.

CALIFORNIA HIGHER
Tacoma, Aug. 18.—Improvement in the California lumber market was reported by local lumbermen. The demand has become much stronger within the last few days and prices have advanced \$1 per 1,000 feet. Some of the lumber carriers which have been tied up at Oakland for several weeks are being placed in service again, according to reports. There still is a large number of idle ships in that harbor. The Atlantic market remains about the same. Mail ship prices are becoming more heavy.

Logs are becoming scarcer, but there is no increase in prices. Unless some of the camps open within a few days there will be a sharp rise in this district in another week. Should the rains be heavy enough to eliminate the forest fire menace, several camps probably will resume operations shortly.

Log prices: Fir, \$12, \$18 and \$24; hemlock, \$11 and \$13; cedar base, \$17.

Lumber prices: Common \$48, f.a.s. Atlantic shipment, \$17 to \$18; common \$48 f.a.s. California shipment, Nos. 1 and 2, \$16 to \$18; No. 3, \$19 to \$21.

CONFESSES THEFT OF FIFTY AUTOMOBILES

Portland, Ore., Aug. 18.—The theft of nearly fifty automobiles within the past few months in and about Detroit, Mich., was confessed by Arthur McCoy, thirty, local officers said to-night.

McCoy was arrested yesterday on a charge of failure to give right of way and to-day drove his machine to the police station. While he was side answering the charge officers noted the Michigan license and upon investigation discovered the motor number and other marks of identification had been removed. McCoy, after questioning, is said to have confessed that the machine was stolen and that he was involved in a wholesale theft of cars.

ONTARIO WORKERS LEAVE FOR HARVEST

The contingent included single men and married men with their wives and families. Seasoned farmers, college youths, city clerks, and old country men were among those who departed from Toronto to-day.

FOOD FROM AIR AND SUN IS POSSIBILITY
Williamstown, Mass., Aug. 18.—Synthetic food, taken from the light of the sun and from the nitrogen of the air by chemists, will be resorted to in solving the world's food problems as population increases, Dr. H. E. Barnard, president of the American Institute of Banking, predicted to-day.

Speaking before the institute of politics he discounted pessimistic warnings that perils exist in the fact that population is increasing faster than food production. Present development of the synthetic food industry, he said, justifies the prediction that chemists will find a means of wresting from sunlight and air synthetic food to feed the human race. The ocean is another storehouse of food supplies that is as yet virtually untouched, he said.

Two Women Owe Health to Lydia E. Pinkham's Vegetable Compound

St. Adolphe, Manitoba.—"I was very weak and had great pains during my periods so that I could not sweep the floor. The pains were in the right side and extended to the left and then down wards. It seemed as if the body was heavy and upside down. It is for these troubles I took the Vegetable Compound. I saw about it in a paper and one woman prevailed on me to take it. It has helped me in every way, the pains are less, and I have more appetite. It is a pleasure to recommend Lydia E. Pinkham's Vegetable Compound to other women."—LEA D. LORRIS, St. Adolphe, Manitoba.

Found Great Relief Toronto, Ont.—"I am at the change of life with hot flashes, dizziness, weakness and nervousness. I had head aches and was short of breath. I was this way about six months when I read about Lydia E. Pinkham's Vegetable Compound in the newspapers. I have taken eight bottles of it and found great relief."—Mrs. R. J. TORY CANDIDATE APPROVES REPORT THEN DENIES IT

Nicholson's Gibe at Federal Capital Heard by Many Willing to Swear to it

Reporter Submits Report to Speaker, Who O.K.'s Then Repudiates it

Concerning the controversy over the reported utterances of G. B. Nicholson, former M.P. for Algoma East, J. P. B. Livesay, general manager of the Canadian Press, has forwarded the following communication to all members:

"The Canadian Press has received a number of inquiries from its members as to the correctness of its report covering Mr. Meighen's meeting at North Bay on August 4 last, in particular regard to a statement then made by G. B. Nicholson, late member for Algoma East, as follows: 'Do you want to endorse a condition?' asked Mr. Nicholson, 'in which one of the chief public buildings of the country in Ottawa is practically turned into a bawdy house and the keeper of that bawdy house is on the pay-roll of this country at \$3,500 a year?'"

"This meeting was reported by George Hambleton, Ottawa superintendent of the Canadian Press, who, as is the custom, is accompanying the Prime Minister on his speaking tour. In sending over the wire this statement of Mr. Nicholson just before midnight of August 4 Mr. Hambleton added the following note for our night editor in Toronto:

SAID REPORT CORRECT
"Please call Mr. Livesay's attention to Nicholson's statement re public building bawdy house. Nicholson says my report of his statement is correct, but Mr. Livesay might think it undesirable to run it."

"This message was immediately communicated to the writer, who saw no reason for withholding publication of a statement made on a public platform by a member of the late House of Commons."

"Two nights after, on August 6, the Canadian Press carried the following news dispatch from Ottawa:

"Ottawa, Ont., Aug. 6 (By Canadian Press).—G. B. Nicholson, member in last House for East Algoma, wired Sir Henry Drayton, acting Premier, to-night a protest against the interpretation placed on his utterances in North Bay on Wednesday night last. Mr. Nicholson was reported in newspaper dispatches as saying that one of the chief public buildings of the country in Ottawa is practically turned into a bawdy house." Mr. Nicholson to-night states that he referred to "the chief city of Canada" and by that he meant the city of Montreal."

"Mr. Nicholson's telegram to Sir Henry reads: 'Contradict most emphatically having made any reference whatever to any public building or any part of the service in the city of Ottawa. Any matter referred to in the above dispatches given was connected with revelations to customs department at Montreal. I have the highest personal regards for the public service at Ottawa. What I said was as follows: 'Do the electors of the constituency of Nipissing desire to endorse a state of immorality to which the chief branch of public service has been reduced in the chief city of Canada, namely the city of Montreal?'"

"Thereupon the writer wired Mr. Hambleton, then with Meighen in Manitoba, referring to the above statement by Mr. Nicholson and asking whether he was quite certain Mr. Nicholson said Ottawa and not Montreal. Yesterday, Mr. Hambleton wired in reply from Winnipeg, as follows:

APPROVED REPORT
—Winnipeg, Man., Aug. 8.—Re Nicholson; before filing dispatch I sent this note to Nicholson in meeting, as follows: 'Dear Mr. Nicholson: I did not quite catch your reference to the public building. Is this correct please?'"

"Do you want to endorse a condition in which one of the chief public buildings in the country in Ottawa is practically turned into a bawdy house and the keeper of that bawdy house is on the payroll of the country at \$3,500 a year?"

"This note was returned to me without any change and marked 'Yes.' I still have it. I notice my dispatch as published quotes him as saying 'practically turned.' Copy words were 'practically turned.' Copy words were 'practically turned.' In my note to Nicholson I underlined words 'in Ottawa,' to draw his attention to them, but he made no change. (Signed) George Hambleton."

"The above is furnished for the information of the membership as showing the textual correctness of Mr. Hambleton's report."

J. P. B. LIVESAY, "General Manager."

NORTH BAY AND OTTAWA
Under the heading: "Mr. Nicholson denies it. But North Bay Conservative organ also quotes him as insulting at the civil service." the Ottawa Citizen publishes the following items on August 9—

"Editor Ottawa Citizen: The Toronto Star quotes you as referring editorially to an alleged statement by me at North Bay reflecting on some department of the civil service at Ottawa. I made no statement what ever referring in any way to the civil service at Ottawa or any department in Ottawa. I would ask you to give this denial, please, publicity as you gave the original allegation."

G. B. NICHOLSON.

The North Bay Advocate, Conservative, in its report of the Meighen speech in last Thursday's issue of the North Bay Advocate. This report is absolutely correct and can be substantiated by any number of affidavits if necessary by leading citizens here, including doctors, lawyers, etc."

"We have interviewed Mr. Pratt, proprietor of the Advocate, and he says his reporter's version is absolutely correct and that Mr. Nicholson cannot contradict it. P. McCool, secretary Liberal Committee, North Bay."

YOUR BABY and MINE
By MYRTLE MEYER ELDRED

Some Assorted Questions

Here are some questions sent me by one of our mothers, the answers to which may be of general help.

(1) How much orange juice should a baby have daily and will prune juice do as well?

Orange juice can be started as early as the second month in the case of bottle fed babies. Begin with one teaspoonful of the juice from a nice sweet orange and dilute it with one or more teaspoons of boiled water. If the baby will not take water he can be given three times as much water as juice. Prune juice is excellent for constipation. But the two juices are not interchangeable as orange juice contains valuable vitamins which are not present in the cooked prune juice.

(2) Give me a recipe for vegetable juice.

This recipe appears in our Wean-

ing and Feeding leaflet. One cup of peeled, well-washed and chopped carrots, celery, turnips and spinach. Cook in water to cover (very slowly) in a covered kettle for two hours, when finished there should be two cups of liquid. Strain and salt slightly. This can be used as part of the water in one of the bottle feedings, or be given separately or mixed with the cereal. The principal thing is that the baby get it.

(3) Should a baby of this age have brown bread toasted?

Not Boston brown bread, nor whole wheat toast, for the bits of bran in these breads would be difficult for the baby to take care of. Whole wheat breads are fine for the baby of two years or more.

(4) Should the cereal be given with part of his milk, or should extra milk be used for this? Which should he get first, his bottle or the vegetable soup?

Give cereal, using part of his regular bottle feeding over it. If the ounce or two of soup he takes (first) spoils his appetite for his bottle, include the soup (unsalted) in his bottle.

(5) When should he take his milk from a cup?

Begin when he is one year old to give him one of his bottle feedings from a cup. When he is able to manage a whole cupful of milk at a feeding, give him another feeding in that manner. In this way gradually get him to taking all of his feedings by means of a cup instead of the bottle.

WOMEN'S AFFAIRS

CLUB
AND
NEWSPUBLIC DELEGATES
TO HEAR ARGUMENTS
ON WOMEN'S WAGES

Very keen interest is being taken in the official conference to be held at Vancouver tomorrow, at which the petition of women employees in the fruit and vegetable industry, for a review of the existing wage order under the Minimum Wage Act, will be considered.

The contention of the petitioners is that the present order, under which an adult and experienced worker is entitled to be paid at the rate of \$14 for a week of forty-eight hours, should be revised so as to increase the rate of pay, particularly to piece workers.

The conference, which will be commenced at the Vancouver Court-house at 10 o'clock on Friday morning, will be continued in the afternoon, and a further meeting will be held in the evening, for the convenience of any employees who are unable to attend during the day.

REPRESENTATIVES NAMED

The following will take part in the conference:

For the employers—H. C. Wade, Dominion Cannery, Vancouver; J. A. Wattie, Western Packing Corporation, Vancouver; A. L. Watson, Farmers' Canning Company, Mission City.

For the employees—Mrs. Jean Campbell, Vancouver; Mrs. E. C. F. Venables, Penticton; Mrs. McClelland, Kelowna.

For the public—Mrs. H. P. Hodges, Victoria; Mrs. A. Wells Gray, New Westminster; Mrs. J. H. Miller, Vernon.

The conference will be open to the public.

The first order by the Minimum Wage Board affecting the fruit and vegetable industry was passed in 1920. Two years later the employers petitioned for a downward revision of the wage rate, and a conference was held on September 2, 1922, but did not result in any material change. The present petition is from the employees, and it is anticipated that while weekly wage rates may not be altered to any considerable extent, working conditions in the industry will receive a good deal of attention.

His Honor the Lieutenant-Governor and Miss Mackenzie entertained at an informal garden party at Government House yesterday afternoon, when their guests included members of the Senior Golfers' Association and their wives. Mrs. Joseph Rose, accompanied by her little son, Raymond, has returned to Victoria after an absence of four months, during which she visited relatives in Eastern Canada and the United States. to make a pleasing contrast with it. The prettiest ones I have seen are in light colors.

I'm sending you a photograph of the most attractive one I saw. It is of a fairly deep, but very soft and subdued rose color, and it is worn with a pink felt-hat several shades lighter.

More and more it occurs to me that the most charming effects are achieved through extreme simplicity. A dress may be effectively simple, however, only when made of the best material and cut with a faultless line.

By these two aims you recognize the work of the really first-class houses.

My poor friend Jimmy is still in the hospital, though he is a little better. His family, that is his mother and sister, are now here, and though they were very polite to me and me when we saw Jimmy yesterday, I felt they were really none too friendly toward us.

Even handicapped, with some broken bones, and all sorts of things wrong, Jimmy manages to be his amusing self, and makes such ridiculous comments to his nurse, who is such a serious woman, that his sick room has none of the funeral air you might expect.

His sister and mother dress marvelously—yet there is something about their attire which lacks individuality. The sister, who is very blonde, was dressed in a georgette dress almost the color of her hair, with the most subtle cut, and strangely enough she was wearing an ostrich boa of a very light brown with it. Apparently she is sponsoring the ostrich fad.

Jacques is his charming self, and as devoted as I could wish. Since Jimmy is in the hospital, he is not being bothered with much competition, and all's well.

Please give my love to my aunt and uncle, and keep much for your own dear self.

Affectionately,
GERMAINE.

S.P.C.A. Protested
Against Rodeos

At the committee meeting of the S.P.C.A. on Tuesday it was reported that Canadian societies had protested against the rodeo exhibition held in Winnipeg in July, and as every effort is being made by humane organizations to prevent such undesirable exhibitions on this continent, the S.P.C.A. deeply deplores the attitude of the city in allowing the stampede to be held.

Mr. Maurice's report showed much work done during the last month and in addition to the general work of the society it included a trip to Courtenay, where investigation was said to be needed. On the return journey the Inspector heard of a case of alleged ill-treatment of dogs, and upon investigating the matter a summons was issued which resulted in a conviction in the Nanaimo court.

The society regrets the number of instances in which animals are run down by motors, whose occupants give no heed to the damage they have done. Efforts are being made to get the regulations so altered that motorists will be compelled to report such cases. Persons noticing motorists who run down animals are requested to take the number of the car and report to the society or the police.

Cases investigated during the past month included: Dogs 10 (3 destroyed), horses 9 (1 destroyed), cats 7 (3 destroyed), goats 1, pigs 1, miscellaneous 3. Cases in court 1 conviction. R. W. Hunter presided at the meeting.

Lodge Meeting—Princess Patricia Lodge, Daughters of St. George, will hold its meeting in the Eagles' Hall on Friday, August 20, at 7:30 p.m.

The meeting will be followed by a benefit mock auction and the evening will close with a dance.

milliners are trying to bring back ostrich feathers.

Just the mere mention of them recalls a picture of those overfuffed hats of the late nineties and early twentieth century, and it seems ridiculous to think that we who have learned to wear the small untrimmed hat with such distinction should ever want to load up our heads again.

But there is no accounting for feminine styles. And there are using ostrich so cleverly, it may quite possibly become the vogue again. Instead of using it on hats, they are making ostrich boas in shades of beige—I must tell you that our

Paris, Aug. 1 (By Mail)—Dearest Cousin,

Thanks for your very kind letter and the pin you sent me. It is lovelier than anything I have ever seen over here, and just what I need for my newest hat.

While at Deauville and since I have returned to Paris, it has occurred to me that no hat, large or small, is complete without its jewel brooches that cost from 5 to 600,000 francs.

Speaking of hats—and I'm apparently always on the subject of clothes—must tell you that our

MOTHERS AND THEIR
BABIES BENEFITED
BY CAMP HOLIDAY

Social Service Entertained 16 Mothers, 68 Children; Hope For Permanent Site

After providing a much-needed and healthful holiday to a number of mothers and their children, the camp established by the Social Service League at Cordova Bay was closed down this week.

During the period of its existence, the camp accommodated sixteen mothers and sixty-eight younger people, including twenty-six "teen-age" girls. The mothers were accompanied by the tiny children and in the delightful surroundings, with good food well cooked and a freedom from domestic cares, the women, many of them just recovering from illness, took on a new vigor and have returned to the city much benefited by the holiday and able to take up their domestic duties with renewed enthusiasm.

The health of the children was carefully watched, and some of the little ones gained as much as eight pounds during the holiday.

An ice cream treat and a marshmallow roast was arranged for each group, as well as a sports day with special prizes. Services were also held each Sunday, clergy from the city taking charge.

HOPE FOR PERMANENT SITE

The league is very grateful to the kindly friends whose generosity made the holding of the camp possible, and to the members of the Metropolitan Brotherhood, Rotary, Kiwanis and Gryo Clubs who transported the mothers and children to and from the camp.

It is hoped to hold an even larger camp next year, while an ambitious project of a permanent camp site, so that all children and mothers could go out there at any time to recuperate.

GERTRUDE EDERLE
BUYS PARIS GOWNS

Refuses to Discuss Criticisms of Cross-channel Performance

Paris, Aug. 19—Miss Gertrude Ederle, America's premier swimmer, is in Paris and for the moment has forgotten her triumph over the English Channel in her eagerness, like Helen Wills, the tennis champion, to acquire a new wardrobe before returning to her home town—New York. She will sail for America on the Berengaria Saturday.

In the meantime, having announced her willingness to meet all comers, male or female, in another channel swim, Miss Ederle had no comment to make to-day on the conditions of such a contest or possible acceptance of her sweeping challenge.

Gertrude came through from Germany last night accompanied by her father and sister. The train was crowded, with many German tourists about. No hand was available on the sleeper, and the best the American girl could do was to sit in an ordinary coach, which tested her courage and stamina.

She lost no time after registering at her hotel in setting out on a tour of the Paris shops, and only occasionally was she recognized. At such times she was given hearty greetings.

But Gertrude was too busy to talk to the newspaper men, who endeavored to obtain her opinion of the recent criticisms in the British and continental newspapers on her achievement. Through a representative she let it be known that for the present at least she had no comment to make, as the criticisms were hardly worth consideration.

New York, Aug. 19—Max Carey, University-bred centre-fielder, recently deposed as captain of the Pittsburgh Pirates, may become manager of the Brooklyn Dodgers in 1927.

lyn's claim of the expensive centre-fielder allowed by the Pirates yesterday, be explained. The club already boasts Dazy Vance and Zack Wheat, two high-salaried performers. Manager Wilbert Robinson, of the Dodgers, who also is president of the club, tried a year ago to leave the bench for executive duties and he placed Wheat in charge of the team. A great slugger and fielder, Wheat failed to

Carey, considering the circumstances, undoubtedly will make up his mind to report to Brooklyn.

The Pirates went into action yesterday for the first time since Carey, Carson Higbee and the veteran Babe Adams were punished for a reported effort to oust Fred Clarke, assistant manager, from the bench. They divided two games with

The St. Louis Cardinals remained half-game behind in the standing by beating Brooklyn 6-2. Cincinnati kept pace with the leaders by beating the Phillies 3-0.

Boston took its fourth straight from St. Louis in the only American league game played, 4-2.

WELL RECEIVED AT
COLISEUM THEATRE"My Lady Friends," potted version
of the celebrated musical play, "No!
Nanette," now playing at the
Coliseum, is being exceptionally
well received by capacity houses.
Brimsful of mirth and humor and
containing an abundance of laughter-
provoking situations and complica-
tions, together with clever dialogue
and splendid acting, combine to make
this the finest production yet pre-
sented by Ed. Redmond. An eccen-
tric dance number, very cleverly
executed, is given by Gertrude Bur-
ton, Zela Doherty, Beth Allen, Ruth
Hamilton and Doreen Davis, while
George Olsen sings that hauntingly
sweet refrain, "Smilin' Thru."SCREEN EXPLOITS
OF JOHNNY HINES
STARTLE VILLAGESleepy little Dingmans Falls, Pa.,
was roused to fever heat recently
during the filming of "Rainbow
Riley," Johnny Hines' new picture,
now showing at the Playhouse.
According to the script of the
photoplay, Johnny, who plays the
part of a cub reporter, is appointed
to a rather weak suspension cable.
Dingmans Falls was selected as the
site of the hazardous swing.
While engineers' experts con-
structed the mechanics of the
"swing," the entire village turned out
to watch the proceedings. Occasion-
ally they rendered valuable aid by
volunteering information about the
land layout of the neighborhood.
When Johnny took the "fall," the
villagers gasped, but were reassured
when they witnessed the genial com-
edian land safely on the far side of
the chasm.CHANEY PREFERS
TO DIE TO JAZZ
AIR IN "MANDALAY""Red Hot Mamma!"
That's a strange tune to die to.
But that's the music Lon Chaney
chose for his death scene in "The
Road to Mandalay," his new Metro-
Goldwyn-Mayer production now
playing at the Dominion Theatre.
No funeral marches or mournful
strains of "Ave's Death" so common
an inspirer of a screen death, her-
alded his passing (for screen pur-
poses only) from this mundane
Jazz proved the herald of his
demise."It's all a mistake to use mourn-
ful music to die to," says Chaney. "It
breaks your mood and you put on a
lugubrious air that spoils your whole
job of dying. If they play something
lively your senses are sharpened and
you pay proper attention to the busi-
ness of 'kicking the bucket.' Sad
music is all right for crying scenes—
but to die properly you've got to
have your wits about you."
Chaney plays the sinister "Singa-
pore Joe," Oriental detective, in the
new mystery drama of the Orient,
and in the end goes to the land where
it's hoped his forefathers are not.
Tod Browning directed the produc-
tion, with Lola Moran as the heroine
and a cast that includes Owen
Moore, Henry B. Walthall, Kami-
yama Sojin, John George and others
of note.CORINNE GRIFFITH
HAS MOST COLORFUL
SCREEN VEHICLECorinne Griffith's new First Na-
tional production of "Into Her King-
dom" is drawing capacity audiences
to the Capitol Theatre this week.
The production, directed by Svend
Gade, is without a doubt one of the
most popular as well as dramatic
and colorful vehicles she has yet been
given.
She plays the role of a Russian
grand duchess and opposite her as
leading man is Einar Hanson, the
Swedish actor, who, becoming a Bol-
shevik, marries her with the inten-
tion of inflicting a punishment worse
than death.
How he learns to love his wife
when they are established in an
American home provides one of the
most powerful dramatic situations in
this remarkable film.
The scenario of "Into Her King-
dom" based on Ruth Comfort King-
mill's story, was written by Carey
Wilson.MAIN EXTRA PRIZES

POULTRY SHOWBig Classes Take Long Time
For Judging; Awards An-
nouncedExtra cash prizes in many classes
of the poultry show have been award-
ed by the Provincial Exhibition as
a result of the tremendous entry list
in popular breeds. An instance of
this is found in the Utility Class for
white leghorn chickens, where the
additional prizes in some sections
bring the total awards up to nine or
ten.The entries of popular breeds are
also highly competitive in quality,
and the whole of one day has been
required for the judging of one class.
The judges give island poultry fan-
cers high praise for the condition of
the birds shown and the high quality
of the stock.

SAANICH ENDS UNLIMITED FREE SCHOOL TUITION

Will Charge High School Fees For Pupils Past Seventeenth Birthday

Commencing with the reopening of the schools in September, Saanich will charge fees for high school tuition of pupils above seventeen years of age.

At a special meeting held at Royal Oak last night the Saanich School Board decided that \$30 for one year's tuition shall be paid by parents of pupils past their seventeenth birthday. This concedes free tuition for one year beyond the age when this right is granted by the Schools Act, which specifies that children under sixteen years of age shall be educated without cost to parents.

Parents desiring to keep their children in high school beyond attainment of their eighteenth birthday will be required to assume responsibility for the full amount of any fees charged Saanich by the Victoria School Board. At present this charge is \$5 yearly, per pupil. To permit parents to pay these charges without inconvenience, the board decided that quarterly payments would be accepted. All fees must be paid to the school board in advance.

The board accepted, without amendment, a report favoring this scale of charges which was unanimously presented by a special committee, composed of Trustees Mrs. Beckett, Mrs. Campion and A. E. Horner.

Trustee H. P. Thorpe was unable to attend the session, but gave his approval over the telephone after Chairman F. V. Hobbs had informed him of the tenor of the proposals.

The board decided to ask Principal Ira Dilworth of Victoria High School to report all Saanich pupils over sixteen years of age who are not making satisfactory progress.

"Your committee considers that action must be taken to compel parents and students to realize that the opportunities afforded by this institution cannot be abused at the expense of the ratepayers," read the report adopted by the board.

SUB-NORMAL SCHOOLS

The board laid over until next meeting a recommendation that Saanich ask the Convention of B.C. School Trustees to urge the Provincial Education Department to advance methods of teaching sub-normal children, "if necessary by establishment by the Province of suitable buildings and special teaching staffs, to meet a requirement which cannot be dealt with in our elementary schools."

The committee reported that one such special school should be located on Vancouver Island and others at strategic points on the Mainland.

MINIMUM WAGE LAW AIDING WOMEN TO SECURE ADEQUATE WAGES, NEW FIGURES SHOW

An interesting record of useful work accomplished on behalf of female employees in the Province is given in the annual report of the Minimum Wage Board, which has just been presented to Hon. A. M. Manson, Minister of Labor, by the board, consisting of J. D. McNiven, chairman; Mrs. H. G. MacGill and T. Matthews.

Through the operation of the Minimum Wage Act arrears of wages were collected on behalf of over 200 women and girls who had been underpaid last year and successful prosecutions were taken against twelve offending employers, the report shows.

The number of female employees coming under the Act is given as 15,899, in the service of 2,864 firms. The average weekly wage of adult and skilled female workers in the Province was \$17.38, and for employees who had not completed their training the average was \$10.34.

Although an employer may be permitted to have thirty-five per cent of his employees classified as inexperienced and paid on a lower scale, this provision was taken advantage of only to the extent of 12.38 per cent of the total number of female employees in the Province.

Miss Muriel Fairall of Victoria has returned to the city after a visit to her aunt, Mrs. J. W. Sluggitt.

"Wants" Well Worth Watching

Classified ads, sometimes abbreviated to "wants," are often such good "clues" to business chances and opportunities that it is worth while for YOU to WATCH them—worth while for you to make the "watching" a part of your business, no matter what your business is; a part of your occupation, no matter what that is.

BENEFITS LARGE

The benefits of the Minimum Wage law and regulations, it is claimed, are becoming better known and more far-reaching in their effects. The advantages of the protection afforded by this legislation accrue to employers as well as to employees. The standard of efficiency is raised and unfair competition with firms who might be tempted to lower wages is eliminated.

The board gives recognition of the fact that each year there is more

helpful co-operation from the majority of employers. Minor infractions have occurred, however, and the matter of underpayment of wages was taken up with employers. With the help of the board, and without recourse to legal proceedings, the sum of \$2,857.82 was collected in arrears for 219 women workers in various parts of the Province. The girls who shared in this amount were engaged in many distinct occupations. On the list appeared clerks in stores, employees in factories, hotels, cafes, beauty parlors, fruit canneries, offices, dressmaking and millinery establishments.

WAGE FIGURES

In the nine different groups of employees affected by orders of the board the weekly average wage for experienced workers was as follows: Mercantile, \$15.16; laundries, \$14.60; public housekeeping occupation, \$15.32; offices, \$15.74; personal service, \$17.30; fishing industry, \$23.31; telephone and telegraph occupation, \$17.99; fruit and vegetable industry, \$17.77 for time workers, and \$20.30 for piece workers; and manufacturing industry, \$16.60.

The total payroll for the week reported was \$229,477.58, an increase of \$40,315.01 over the figures for 1925.

FEW MARRIED WOMEN

Of the 13,899 wage-earning women 19 per cent were married, while 4 per cent of those reported were widows. The highest percentage of married women is in the fruit and vegetable industry, the most seasonal of any covered by order of the board, which employed 44.3 per cent of married women during 1925. In the fruit centres, particularly in the Okanagan when the rush is on it is customary for many to work who otherwise would not appear on the employees' lists. To save perishable products every available hand is needed, and if the response to the call for help is to be adequate it means many married women volunteer for this work.

The telephone and telegraph occupation has the lowest percentage of married workers—namely, 3.9. In comparison with other occupations
